LITERATURE SURVEY

| IMPLEMENTING CONTINUOUS CUSTOMER CARE | In this paper, we employ the software as a service (SaaS) model which introduces drastic improvement to the situation, as the service provider can now have direct access to the user data and analyze it if agreed appropriately with the customer. | • Java Script
• HTML
• Google Analytics | • Cloud Computing
• Machine Learning | 1. Feedback loops are used that allow the service provider to capture feedback at the point of experience. One way to find out is to conduct continual end-user experience monitoring to determine if users are happy

2. It is not always easy for SaaS providers to know what customers are experiencing. |

Thank you
